🎓 EDUCATION

Computer Engineering

International University of Sarajevo / Marmara University

07/2024 – 06/2028 | Sarajevo/Istanbul

I am currently a second-year Computer Science student enrolled in a double diploma exchange program between Marmara University and the International University of Sarajevo.

📄 SUMMARY

Second-year Computer Science student interested in game development and software projects, with plans to pursue graduate studies in cybersecurity.

🧠 SKILLS

Programming

- Java (Intermediate)
- C++ (Intermediate)
- C# (Intermediate)
- Python (Intermediate)
- Linux (Basic)

Activities

Participated in various projects and programs including TÜBİTAK, Teknofest, and GençBizz.

🔑 INTERESTS

Game Development

Interested in developing games using Unity and Unreal Engine.

Cybersecurity

Focused on learning system vulnerabilities and practicing with Kali Linux.

🌐 LANGUAGES

Turkish

Native speaker

English

Upper-Intermediate (B2) – Certified by University ELS

Japanese

Beginner

📁 PROJECTS

Pong Game

Unity | C#

12/2025 – 01/2026

- Developed a Pong game using Unity
- Implemented player and AI paddle mechanics with collision detection
- Designed scoring system and basic UI
- Added features such as difficulty selection and power-up system

Console-Based Casino System

STL | C++

03/2024 – 05/2024

- Developed a console-based casino system using C++
- Implemented multiple games including roulette, blackjack, and slot machine
- Designed account management system with file handling (I/O)
- Utilized STL structures such as vector and map
